Washington Homeownership Resource Center

Increasing and preserving homeownership in Washington state by serving as a hub for education, resources, and partnerships.

HOMEOWNERSHIP AND ESTATE PLANNING

What is Estate Planning?

Estate planning helps you prepare for the future by deciding how your assets, including your home, will be managed during your lifetime and passed on after your death. It allows you to designate trusted individuals to make financial or healthcare decisions on your behalf if you're unable to do so.

Depending on your circumstances, thoughtful planning may also help reduce taxes, avoid unnecessary costs or delays, and make it easier for your loved ones to carry out your wishes.

Planning for the future starts with having the right tools and information

Visit our Homeownership and Estate Planning webpage to learn about key documents for protecting your assets, what legal help may be available, and the importance of having a plan in place. You can also access our vetted partner, American Financial Solutions' **FREE**, virtual Estate Planning and Heirs Property course.
